PRESS RELEASE

MAGAL S³ ACQUIRES AIMETIS CORP – A GLOBAL LEADER IN VMS SOFTWARE: DIVERSIFYING AND EXPANDING ITS PRODUCT PORTFOLIO

YEHUD, Israel – April 1st, 2016 -- Magal Security Systems, Ltd. (NASDAQ GM: MAGS) today announced that Senstar, its fully owned subsidiary based in Canada, acquired Aimetis for an enterprise value of approximately US\$ 14 million.

Aimetis is a Canadian-based company, headquartered in Waterloo, Ontario. It is a global leader in intelligent IP video management software (VMS), and was recently recognized by Deloitte, a leading consulting and accounting firm, as one of the fastest growing technology companies in North America.

Saar Koursh, CEO of Magal S³, commented, "Aimetis' product portfolio is highly complementary to Senstar's large portfolio of perimeter intrusion detection systems (PIDS), adding a state of the art video surveillance offering with unmatched solutions for outdoor and critical sites. The acquisition expands the product portfolio by about 20%, and diversifies our offering into new markets such as education, health care and retail. Aimetis is a fast growing company, and we expect the acquisition to be increasingly accretive to Magal from 2017, with no significant effect on the bottom line in 2016."

Brian Rich, President of Senstar, commented, "We welcome the very talented team at Aimetis to Senstar and look forward to realizing the synergies between our companies by expanding our product offering, customer reach and leveraging our global geographical footprints. Together, we now have a unique offering of intelligent video combined with the strongest cyber security solution in the market for video and general physical security networks."

Marc Holtenhoff, CEO of Aimetis, commented, "Aimetis is proud to join the Senstar team and contribute our market leading intelligent network video management solutions to an industry leading portfolio of security and safety products. The acquisition comes at an ideal time with the launch of our new Symphony version 7 just around the corner. We look forward to growing as part of Senstar and Magal."

About Senstar

Senstar, a trusted innovator safeguarding people, places and property, has been manufacturing, selling and supporting the world's largest portfolio of perimeter intrusion detection sensor technologies for 35 years. Senstar is also a leading provider of life safety / emergency call solutions, as well as of a new line of solutions that protect security networks against cyber threats. Senstar's products and solutions can be found around the world in more than 80 countries, in tens of thousands of sites including borders, ports, military and government, correctional facilities and other critical sites.
