## **Magal Wins \$8.5 Million in New Orders for Innovative Border Protection Solutions in Israel**

**Yehud, Israel, February 6, 2017– Magal Security Systems Ltd. (NASDAQ: MAGS)** today announced it has recently won a series of purchase orders amounting to over \$8.5 million. These orders are expected to be delivered throughout 2017.

The orders include the supply, integration and support of new innovative border and perimeter protection solutions to the Israeli Ministry of Defence (IMOD). The IMOD is the first adopter customer of these technologies and we expect future orders for these innovative border and perimeter solutions.

**Commented Saar Koursh, CEO of Magal,** “We are happy to have been selected by the Israeli Ministry of Defence, for the supply and integration of border and perimeter security technology. The systems to be supplied and integrated are the outcome of Magal’s ongoing R&D efforts and are at today’s forefront of border and perimeter security technology worldwide. More broadly, we are very pleased with the increasing order momentum we are seeing as we enter 2017 and this sets us up very positively for the coming year. These recent orders reconfirm our position as world leader in smart fences and border technologies, with more than one thousand kilometers of borders world-wide, equipped with our perimeter security technologies.”

### **ABOUT MAGAL**

Magal is a leading international provider of solutions and products for physical and video security solutions, as well as site management. Over the past 45 years, Magal has delivered its products as well as tailor-made security solutions and turnkey projects to hundreds of satisfied customers in over 80 countries – under some of the most challenging conditions.

Magal offers comprehensive integrated solutions for critical sites, managed by Fortis4G – our 4th generation, cutting-edge PSIM (Physical Security Information Management system). The solutions leverage our broad portfolio of homegrown PIDS (Perimeter Intrusion Detection Systems), advanced VMS (Video Management Software) with native IVA (Intelligent Video Analytics) Security solutions.
